Communications without Frontiers

KD 200
iCallX Mobile Dispatch Console

KD 200, the new mobile dispatch console by ICallX with 4G network support, is engineered to provide a robust and highly adaptable dispatching management solution.

Tailored for enterprises and institutions with dynamic mobile dispatching needs, the KD 200 promises swift and efficient daily communication and dispatching capabilities.

13.3" Display   4400mAh   Video Call   Portable   GIS Map

Key Features and Benefits

- **Diverse Connectivity Choices**

  Enjoy a versatile range of connectivity options, including 4G, WiFi, and wired network access, ensuring reliable voice communications across various networking preferences.

- **Comprehensive Call Capabilities**

  Experience an array of voice call functionalities, accommodating individual, group, and temporary group calls while monitoring up to four groups' voice conversations concurrently. The console also supports call recording and playback functionality for enhanced operational control.

- **Portable and Versatile Design**

  The KD 200 integrates a PoC dispatching station, palm microphone, printer, and more into a sleek large-screen touchpad, transforming it into a mobile dispatching powerhouse. Lightweight and highly portable, it optimizes space usage while minimizing maintenance costs.

- **User-Friendly Interface**

  With its ergonomic 13.3-inch large touchscreen, the console's clear and intuitive display helps make daily dispatching operations more effortless and straight-forward.

- **GIS Map-Based Dispatching**

  An interactive map allows dispatchers to visualize real-time locations of portable devices, vehicle-mounted radios, body-worn cameras, and other terminals. Quickly access detailed device information with a click, enabling map-based voice and video calls, short messages, frame selection, geo-fencing, and circle selection functionalities.

- **Enhanced External Connectivity**

  The KD 200 supports diverse external connectivity options, including an HDMI output for viewing the dispatching center on a larger screen, multiple USB 3.0 ports for mouse and keyboard connections, and an SP interface facilitating external speaker connectivity, optimizing usability across various setups.

General Specification

Networking Type	RJ45 network port/4G/WiFi
Frequency	FDD-LTE B2/B4/B5/B12/B13/B14/B66/B71 WCDMA B2/B4/B5
Battery	4400mAh
Display	13.3" inch 1920*1080P
Memory	2G+8G (Support 128G TF card)
Interface	USB*2, HDMI, Typec OTG，SP
Camera	2 M
Speaker	5W
Operating voltage	10.5V~15V
Wi-Fi	2.4&5G
Printer	Mini Microthermal printer
OS	Android 7.1
Operating voltage	10.5V~15V
Operating temperature	-0℃ ~ + 60℃

*All specifications are tested according to applicable standards, and subject to change without notice due to continuous development.

Accessories

| Handheld Microphone | Power Adapter |

Applications

Fire Fighting

Police

Army

Medical Treatment
